You all get the fuck out of my way.

Edd Vick's The Way of the Saints. I'm going to need whiskey, barkeep. And I'll take the top shelf shit, buster. And best just give me the bottle, set it at my elbow, mister.

No, seriously, I need the bottle, jack.

Brother, too fucking close.

Examined Vick's The Way of the Saints and found it wanting, right? You found it lame, right, Doomey?

I will take that as a yes, Boligard. Vick's The Way of the Saints is getting ground beneath my heel.

I've pulled capital from my pants, but i'm wondering why we're doing this. DePlancher. Do you believe is the Goodstuff? are you stuck on a bluff over some ocean somewhere, in a tent with no fucking wifi. god fuck.

Je m'excuse, mes amis. I meant only to slip away to find a new cloak at the Village de Valu, but slip I did. And fell. I hit my head. Two odd men carried me to a cowboy town where a jewelled Madam read me poetry and forced apple cider vinegar garlic and Thieves Oil down my throat. I could neither speak nor escape until my fever broke and somehow I found my cat, my boots, and legs.

Mon ami! Your image like a glowing oasis. How warm it is though the fire is not even lit...can we burn something? What ship? What wreck?

Oh! the work's piled high and investors must be losing faith. Non! You've been working triple time to cover? Come, friend. Play us some real music. Break out the tumblers and fresh amber. Wash this stale period away... I am returned.

Chiquita. the song starts off with a lot of chord via Joe, or maybe it's Brad, but then it settles in and the rafter-speakers go all hog wild. he tosses the remote to the desktop, and he pulls open the bottom left desk drawer. he pulls out a couple few shot glasses and a bottle of amber. he pours a few good pours into the shot glasses, gathers them up and delivers them throughout the Floor (which isn't too hard seeing as how Jesus and Carol seem to be back on treasure island) and then he plops his ass into the pilot's chair. the current capital, dark men, dark machines is laid out on the desktop]

we've thumbed through Guerio's capital, folks, and we've decided...shit, i lost track on what it was we decided. where's carol, goddamnit. i'm gonna haf'ta look this over again, peoples. reexamine the piece, right?

have you seen Carol? have you seen Jesus Christ?

why do i feel like i'm in an episode of castlerock?

My man's gone through that door, cousins.

But he's due back forward.

No Vaseline. Jesus walks out of the men's. The fellas move in on Carol, grab her dress hem, her neck line, grab her ends]

people, i'd love to know where this fucker Sinch is going with this piece of craft, but yo, it's like some sort of folk stuff, some ancient Indian shit. which is totally cool drifter, right? but we don't do that here. we dig style. so right off the bat, be it a single or a triple, we can't allow stoic heritage honor stuff to go up the pipe, i'm I right? this fella, Sinch, has no idea where he landed with TQR. considering fining the motherfucker.

lost at birth. the mirrorball twirls, and then sparks grinds off it, and then arcs go all around the Floor, and a heavy spark lands on the tip of the capital doobie, and the doobie sparks up, ignites, goes all aflame. doomey pulls it in, puts the flame to the tip of his cigarette, sucks in some really sweet smoke, exhales]

Fruit of the Earth has been Portholed.

what the fuck, Charlie?
